The Journal of Research on Christian Education (JRCE) provides a vehicle for the scholarly interchange of research findings relative to every level of Christian education. Particular emphasis is given to Christian schooling within the Protestant tradition as well as to research findings from other traditions which have implications for such schools.

The purposes of the *JRCE* are (1) to stimulate inquiry among scholars of Christian education on topics of common interest, (2) to serve as a clearinghouse for the organization and diffusion of emerging research on the Christian school, and (3) to communicate research findings that inform Christian educators as well as the wider society.
